

EMR Workstation Specifications

The Electronic Medical Record Workstation (EMR) is a housing unit to secure a monitor and CPU so medical records can be entered and stored while helping to comply with HIPAA regulations. These units are typically used in patient or exam rooms in a hospital or other types of medical facilities. The auto-locking feature provides a high level of security for patient info.

CONSTRUCTION

Monitor Compartment

- Constructed primarily of 20 gauge.
- Incorporates a design conducive to airflow and assists with the dispersing of heat from the monitor.
- Can accommodate up to a 24" monitor.
- Gas springs allow the door to self close with minimal assistance.
- Electronic lock provides high level of security and also meets HIPAA regulations.
- Grommets are located on the bottom and both side panels for cable management. Cables can also be run through the back panel of the unit and through the wall.
- Radius front edges add an appealing appearance as well as provide safety in hallways and open areas.
- 100% of all painted steel components are powder coated finish; powder coating is the most environmentally safe coating method available today.

CPU Compartment

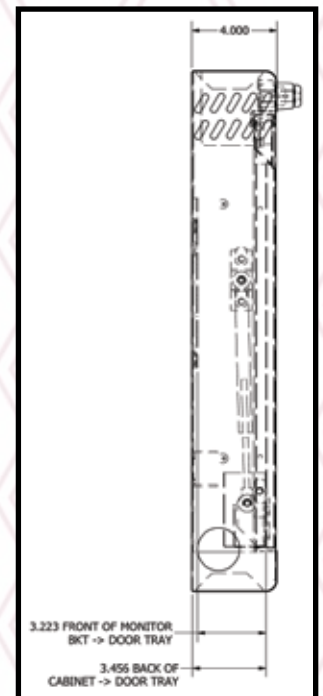

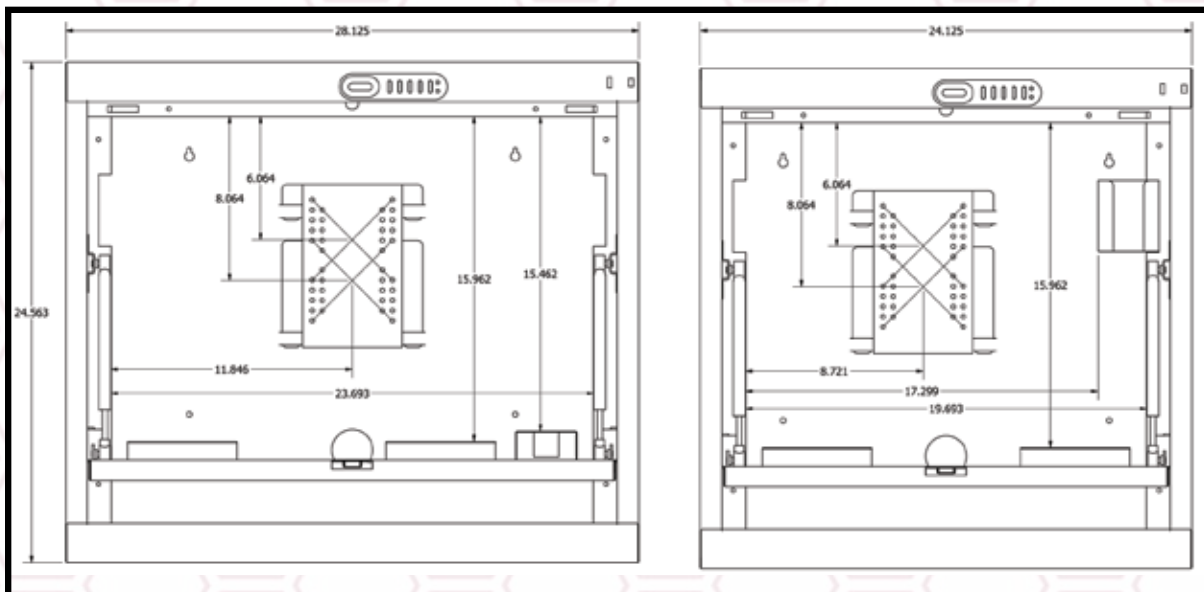

- Constructed primarily of 20 gauge.
- Secured via key lock.
- Incorporates a design conducive to airflow and assists with the dispersing of heat from the CPU.
- Grommets are located on the bottom and both side panels for cable management. Cables can also be run through the back panel of the unit and through the wall.
- Door is 100% removable for easy access to CPU for IT personnel.
- Radius front edges add an appealing appearance as well as provide safety in hallways and open areas.
- 100% of all painted steel components are powder coated finish; powder coating is the most environmentally safe coating method available today.

Dimensions

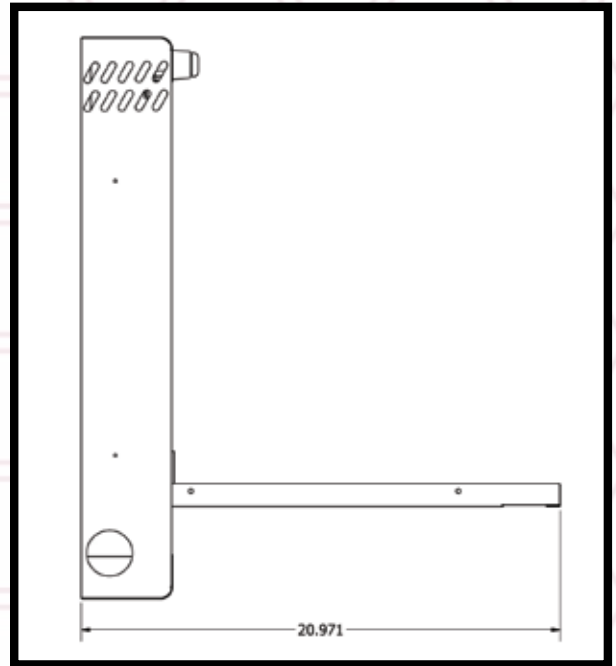

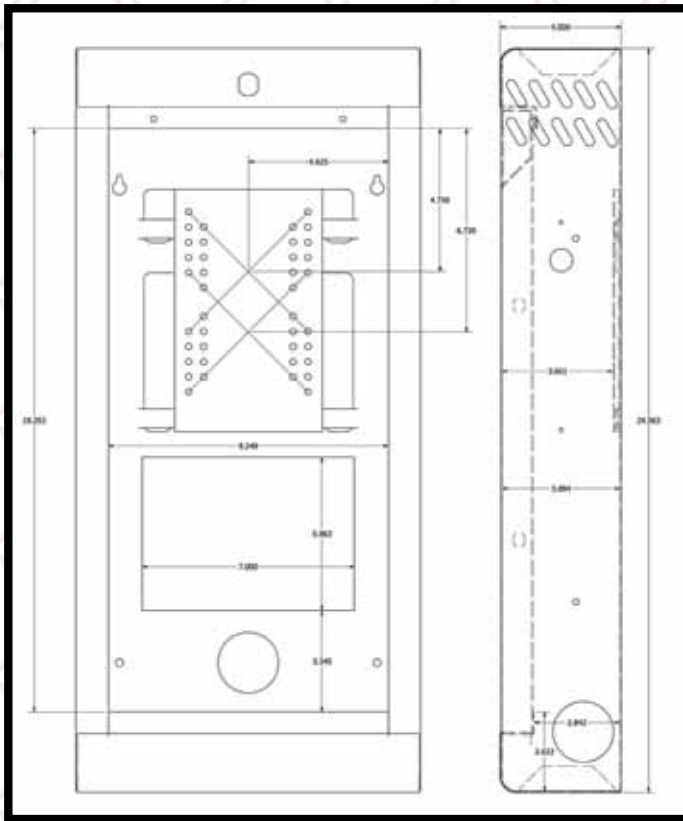

- Exterior Dimensions:
WWP-500E
WWP-500M
WWP-500C

35-15/16"W x 24-9/16"H x 4"D
24-9/16"W x 24-9/16"H x 4"D
11-3/8"W x 24-9/16"H x 4"D

- Interior Dimensions:
Monitor Compartment

CPU Compartment

- Total depth of unit including electronic lock 4-3/4"D

Auto Locking Feature/Closing Assist

- After opening the electronic lock, the lock will auto lock after 5 seconds.
- The door can then be folded down to be used as a workstation.
